

# Frank™

By

Ostaco

Dear homeowners,

These past years have been challenging for everyone. As a business, we had to adapt in many ways. This felt like the right time to introduce the re-branding of Ostaco Windows and Doors to Frank™.

We are all beginning a new chapter. The adversity we have faced as a group has made us stronger as an organization and has helped us focus on what is most important – our staff, our partners, and you the homeowner. That is why we take pride in our work and specialize in manufacturing custom designed products right here in Ontario. At Frank™, it's simple, we make windows & doors.

Frank Greco

A handwritten signature in white ink, appearing to read 'Frank Greco', is located below the name text.

# Windows

Frank™ has the windows for your next project. If you are replacing your windows to be more 'green', or building your dream home, the advantage of choosing Frank™ is not having to compromise. With four distinct window product lines that can be customized to meet your needs -- Frank™ is your window solution.

# Enersense

Elevated design for the discerning type.

If you chose this one, you are correct. The Enersense window offers the option of a smooth paintable interior surface or a variety of warm wood trim finish, all packaged together in a robust 5-3/4" deep frame. For those that know the value of a perfect match, you found the solution right here.

Check this product on our website.

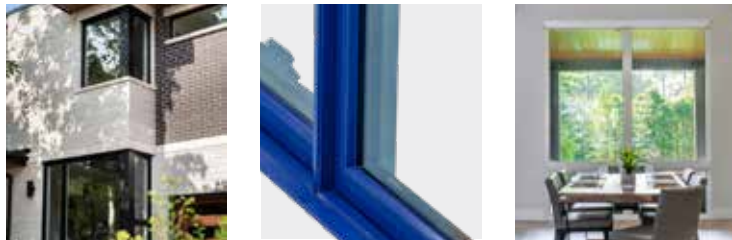

# Prism

More glass more light.

PRISM is more light -- less frame. And less frame doesn't mean less performance. Our engineers were able to design a window that surpasses the standards for residential windows, and achieve commercial level performance ratings. Slim profile and lots of glass, a modern look for any application.

Check this product on our website.

# Core +

Our most versatile.

CORE + is hands down the best value vinyl window on the market. Inspired by the original CORE series, this enhanced version carries a 4-9/16" deep frame which delivers better comfort and increased energy performance. Core + is listed as Energy Star's Most Efficient and remains to be the most popular window series.

Check this product on our website.

# Core

A solution for every home.

Turn something old into something new with the added benefit of today's window technology and design. CORE windows 3 ¼" frame depth can be easily retrofitted to existing openings in any home, and installation is easy. You get new windows that suit the original feel of your home, and lower your energy bills.

# Entry Doors

Frank™ Entry Doors are ALL made-to-order. Classic or contemporary, wood grain or “Fire Engine Red”, our Entry Doors add curb appeal and value to your home. Aside from looking great, rest assured that your door system has been built with the attention to detail of an artisan, and with precision engineering to provide quality and security.

# Designer

## Smooth and stylish.

Your front door is the first thing that people notice about your home. Why not add some colour? Durable and dependable, DESIGNER fibreglass doors are a better alternative to steel or wood entry doors. Fibreglass does not dent, and it outperforms steel throughout the seasons. The smooth fiberglass surface coats perfectly with any colour & without constant maintenance. Commit to the colour you love, pair it with a contemporary door slab, a simple glass detail if you wish, and turn some heads.

# Classic

Trusted and timeless.

A wood grain entry door is timeless. The CLASSIC line of entry door systems is inspired by traditional designs and engineered with modern materials. Your fiberglass entry door system will look like real wood at a fraction of the cost. The CLASSIC is available in Oak and Mahogany grain that we can either colour coat to match your windows, or for a sophisticated look, select one of our many stain options. The choice is yours.

# Artisan

Mixing old with new.

ARTISAN door systems bring together Old World values with today's technology and design. The attention to detail given when building your ARTISAN door system is more akin to the work of a craftsman. And thanks to our Accu-grain technology our fibreglass wood grain is the most realistic on the market. Combine these elements with the clean embossed designs popular with today's homeowner, and your ARTISAN door is built to the highest standards.

# Sliding Doors

Frank™ has the Sliding Door solution for your home. When it comes to a Sliding Door, how it looks is important, but functionality is critical. Whether it is to access a second story deck, or to entertain 'al fresco', your options are wide open with Frank™.

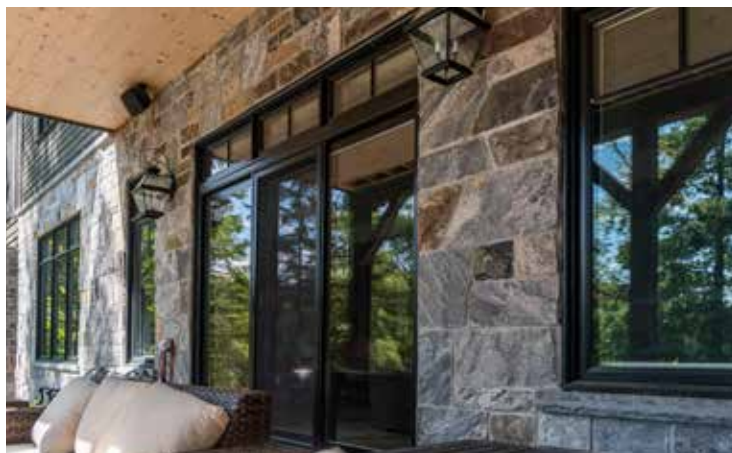

# Moose +

Elevated function and feel.

The Moose + is version 2.0 of this great Canadian patio door series. Each door glides effortlessly on enhanced precision rollers, it carries a full mill-finished aluminum sill plate, and has integrated reinforcements to ensure the bone-structure of the door remains in great form for decades of use.

# Urbania

## Aluminum sliding door reinvented.

Our engineers dared to challenge the status quo and set out to reinvent the aluminum sliding door. URBANIA'S new center opening and offset configurations allow for a real statement. With unparalleled performance and a panoramic view in two or four-panel configurations, URBANIA will turn your living space into a memorable gathering spot for family and friends.

# Loft

## Aluminum lift & slide.

For new construction and renovation projects alike, improve your view and let more light in thanks to the LOFT'S oversized glass panels. Its lift & slide mechanism makes it possible to build sizable patio doors using only two panels for an impressive and expansive view. Engineered for the toughest climates and built with standard multipoint locking mechanisms, LOFT will give you the look and peace of mind you deserve.

# Design Options

## Exterior Finish

We know! How do you choose one? Our most common exterior colour is black for this very reason - it easily matches exterior décor elements. We also see a lot of deep saturated grey tones, like Iron Ore and Midnight Surf. Whatever colour you choose, Frank™ carefully coats your windows and doors with this satin gloss finish, for that long lasting appeal.

## Interior Finish

See all those colours up there? We also offer these options for the interior of your windows, entry doors, and patio doors. Choose a split finish or the same colour in & out.

Check out other finish options.

## Euro Finish

Black

We now offer a Euro Finish, with a matte gloss and subtle stippled texture. With this finish, your windows and doors will have a hard metal look - how cool is that.

## Stains

Driftwood    Fig    Sparrow    Bark    Raven    Timber    Peat

+20 More

Frank™ fiberglass textured doors replicate oak, mahogany, fir, and walnut grains brilliantly, but it's the final finish that brings it to life. With 30 stains to choose from, a special door is ready to be perfectly curated for your beautiful home.

\*printed colours in this catalogue do not perfectly match your final finish. Visit your local Frank™ retailer for colour samples.

Check out other stain options.

**Frank™ has been in windows and doors for over four decades. We have formed strong partnerships, built a trusted team, and designed products for everyone. Frank™ is a neighbour -- we care about your home.**

Frank™ is proudly made in Ontario and services an exclusive network of dealers across Canada. What differentiates us from our competitors is our ability to customize each order, deliver a quality product every time, innovate ahead of the curve, and be a one-stop-shop. In summary, choose Frank™ to make your windows, entry doors, and patio doors.

**Frank™ stands behind all windows and doors produced with a limited lifetime warranty. This warranty is fully transferrable and non-prorated.**

With over 40 years of window and door manufacturing, you can be assured that your windows and doors will be free of manufacturing defects. The Frank™ Window Warranty even covers broken glass for five years - whether it was from a hockey puck that missed the shot or cracked during installation. For full details, speak with your local Frank™ retailer - they will provide details and gladly share with you their experience of supplying and installing Frank™ products along the service support they receive.
