Enhanced Water Usage Data

Insurance Verification Letter

For FloProtect go to meetflo.com/floprotect

Water damage claims are
5x more likely than theft,
6x more likely than fire.

Upon installation of the Smart Water Shutoff, about 50% of homeowners immediately discover a leak.

Learn more about Flo by Moen products at moen.ca/flo

Proactive Leak Detection

Installs on the main water line, and proactively monitors the home for leaks as small as a drop per minute. Uses FloSense™ AI technology, and measures all aspects of a home's plumbing health such as flow rate, temperature and pressure.

24/7 MONITORING

Constantly monitors your home's water usage, detecting leaks of all sizes

DAILY HEALTH TESTS

Runs daily Health Tests, using MicroLeak™ technology, to catch pinhole leaks that often go undetected

SMARTPHONE CONTROL

Sends alerts in real-time to your Flo by Moen App if an issue is detected. Also, turn your home's water on/off remotely through the app

AUTOMATIC SHUT-OFF

Automatically shuts off the water if a catastrophic water event is detected to help prevent damage

Customizable Water Security

Place them anywhere in your home that may be vulnerable to leaks, such as water heaters, toilets and washing machines. By communicating with your Smart Water Shutoff, Smart Water Detectors help you protect every corner of your home.
